### Comment

Everyone was very friendly, courteous, and helpful. Everything was explained to me clearly. Very positive experience.

All was great! Good experience.

I went there for vestibular therapy. She said I didn't need it and we did some balance exercises. I think I still have vertigo.

I was not told to expect the level of pain I had after I returned home when the spinal block and meds wore off. Many people think they need to go to a hospital in Madison to receive the best care (especially U.W.) that way of thinking is not necessarily true. Stoughton Hospital was excellent. I would return there if needed in the Excellent patient care - all staff polite, pleasant & professional. Felt I was in 'good hands' all around, expertise and skill high.

Excellent experience. The facility is excellent - clean, cheerful, addressing patient needs.

I had bad stomach pains after the colonoscopy. I felt they were in a hurry to get me out. Like they wanted my Always the best care from the staff. Thank you -

Nurse \*Becky Beck was awesome! The only complaint I have is no breakfast after surgery. I was so looking for my usual ham/cheese omelet & toasted blueberry muffin.

Overall I had a great experience and I recommend any time I get a chance to commend the service and doctor at making me feel at ease! Thank you! I felt like a person not a number, again... Thank you!

The only bad thing is I was to get my 3-0 parts from my knee surgery and never did. I really was looking forward to seeing what was now in my leg.

Excellent care and attention from the nurse and nurse anesthetist!

Awesome doctor & assistance - the best.

It was a very good experience overall, everyone was very helpful. I am very happy with the outcome.

Awesome experience. Loved the loaf of bread. Everyone was super!

It was so very perfect in every way!

THEY WERE AWESOME! ALL CARE PROVIDERS WERE!!

Friendly nursing staff.

Awesome experience.

Before procedure. The nurse was not as helpful as could be. No help tying gown, getting into bed, adjusting pillow, tolerating wait time, doing IV., additional blankets, etc.

This was a great medical facility with very caring and friendly staff. A+.

Night nurse \*Christy was particularly good. Had a great experience with all the staff! Thanks for the great care & handling.

Most caring & friendly hospital!! Thank you!!

I was very pleased with my experience at Stoughton Hospital and will recommend it to my family and friends.

This was my third surgery there and all of them were great!

Everyone from the person who checked me in, to the nurses, and doctor were amazing! I had a great experience and can't say enough good things about everyone I encountered!

Pleasant & patient, thank you!

All the nurses & technicians were very attentive and helpful.

**Very impressed w/your facility & staff. Would not hesitate to send any one to Stoughton Hospital.**

**\*Dr. Schwaag did a great job on my hernia I had no pain at all. I had a concern one day after surgery and he called me right back and answered all my questions. I very happy with the outcome of this procedure.**
